US Molders

To Our Customers,

Our US Molders Team would like to take this opportunity to thank you for the pleasure of serving you another year and assisting with all your military range product needs.

We continue to strive to provide you with new targetry and range accessories as you share your range concerns and needs with us. Our mission is to do what we can to make your job easier, more efficient, and more cost effective.

We now offer all of our products on GSA and with your help we will continue to look for better ways to be able to serve you.

Thank you for letting us continue to support you!

Your Family at US Molders

Corrugated & Non-Corrugated Sheeting

US Molders offers corrugated plastic sheeting for target backing purposes. More durable and longer lasting than cardboard, this sheeting is an ideal support for paper targets.

US Molders also offers non-corrugated plastic sheeting for target backing. Please call (219) 984-6501 for pricing.

Bunker Section

8' Wall

Kneeling Barrier

47" E-Silhouette

Part Number: USM-128
Dimensions: 20" x 47"
Weight: 5 lbs.
Color Availability: 9 stock colors, see color list

\$28.66 each
(\$25.78 SP)

TC 3-20-40, Chapter 3-30 states that, "All targets must be 90-percent visible from the firing position." This new target is designed specifically for that purpose and demonstrates it with distinct markings on either side of the target.

The target is designed specifically with a four minute of angle diamond that radiates outward for 100m, 200m, and 300m. This allows trainers to quickly mark the target for confirmation at distance exercises. This directly supports the new Table IV, Basic, for Rifles and Carbines in TC-3-20.40, and replicates the 4 MOA aiming point on the Army-standard zero target.

E-Type Silhouette

\$12.52 each
(\$11.27 SP)

Also available with a thermal.

Part Number: USM-01
Dimensions: 20" x 40"
Weight: 2.5 lbs.
Color Availability: 9 stock colors, see color list

Our E-Type Silhouette is the best silhouette target available. It can take thousands of hits without tearing, and lasts indefinitely in outdoor conditions. It is made with a flat, non-reflective surface to increase visibility and eliminate glare. This target also can be cut to fit all major types of target lifters at no extra cost. The E-Type Silhouette complies with all TC 25-8 regulations.

- Reinforced, non-stressing rib structure reduces twisting and warping, adding internal stability
- Smooth molded corners, with no rips or tears
- Offers high-quality cold weather impact

F-Type Silhouette

\$9.59 each
(\$8.63 SP)

Also available with a thermal.

Part Number: USM-03
Dimensions: 26" x 20"
Weight: 1.5 lbs.
Color Availability: 9 stock colors, see color list

Our F-Type Silhouette complies with all regulations as described in TC 25-8. It consistently outlasts and outperforms other silhouettes on the range by demonstrating shatter-resistance performance.

- Can be cut to fit all major types of lifters at no extra cost
- Features flat, non-reflective surface, reducing glare and enhancing visibility
- Made with reinforced rib structure, adding internal strength and rigidity

Tall E-Silhouette

US Molders now offers our E-Type Silhouette in a taller version to meet visibility regulations. Various sizes from our standard 40" Silhouette to 54" in height.

The Tall E-Silhouette offers the opportunity to attach targets to the chest area.

Call our military representative for more information.

Part Number: USM-64
Dimensions: 20" x 1" x 54"
Weight: 5 lbs.
Color Availability: 9 stock colors, see color list

\$53.06 each
(\$47.76 SP)

Contour Silhouette

Our E-Silhouette has evolved.. US Molders has launched the Contour Silhouette in an effort to improve the silhouette target and make it easier for installation. The contour of the target provides for easier target installation on the lifter. The width of the target has been increased to allow for the full range of 20" for qualification. A smooth flat surface allows for thermal or paper target application.

Also available with a thermal.

Part Number: USM-102
Dimensions: 20.75" x 1" x 41.5"
Weight: 6 lbs.
Color Availability: 9 stock colors, see color list

\$28.79 each
(\$25.92 SP)

12" Sniper Silhouette

A new alternative to the US Molders' Sniper Target is the 12" Sniper Silhouette.

- Reinforced, non-stressing rib structure reduces twisting and warping, adding internal stability
- Smooth molded corners, with no rips or tears
- Offers high-quality cold weather impact

Part Number: USM-SC12

Dimensions: 12" x 40"

Weight: 2 lbs.

Color Availability: 9 stock colors, see color list

\$11.32 each
(\$10.19 SP)

Sniper Silhouette

- Improved Rib Structure
- Holds up to extreme high temperatures without drooping, warping, or melting
- Can be cut to fit most major types of lifters at no extra cost

In response to meeting the needs of the Sniper Ranges, US Molders has launched the Sniper Silhouette. Made with the same thickness as US Molders High Heat Environment Targets, the Sniper Silhouette is self-healing, outlasting other silhouette targets.

Note: Sniper Silhouette is not compatible with M-64 / SAAB lifters

Part Number: USM-02-SC6

Dimensions: 20" Base, 6.5" Neck, x 40"

Weight: 3.5 lbs.

Color Availability: 9 stock colors, see color list

\$29.17 each
(\$26.26 SP)

Tall NATO Style Target

\$43.34 each
(\$39.01 SP)

Part Number: USM-93

Dimensions: 18.25" x 1" x 47"

Weight: 5 lbs.

Color Availability: 9 stock colors, see color list

Short NATO Style Target

\$26.79 each
(\$24.12 SP)

Part Number: USM-65

Dimensions: 18.25" x 1" x 30"

Weight: 2 lbs.

Color Availability: 9 stock colors, see color list

High Heat Environment (HHE) Silhouettes

E-Type: \$25.61 each
(\$23.05 SP)

F-Type: \$13.02 each
(\$11.82 SP)

System Target

US Molders Target

The HHE Silhouette is the most advanced silhouette target for the range available today. Made 3 times as thick as regular silhouettes, with an improved rib structure, the HHE lasts longer and takes hits better than any other silhouette target available.

(See thickness comparison above.)

The HHE Silhouette is offered in E-Type and F-Type Silhouettes.

- Can be cut to fit most major types of lifters at no extra cost. (*Note: HHE is not compatible with M-64/SAAB lifters*)
- Holds up to extreme high temperatures without drooping, warping, or melting
- Scored 100% hit registry in range fire comparison test

	F-Type	E-Type
Part Number:	USM-04	USM-02
Dimensions:	26" x 6" x 20"	20" x 1" x 40"
Weight:	3lbs	5lbs
Color Availability: 9 stock colors, see color list		

3D E-Type Ivan

\$25.09 each
(\$22.59 SP)

US Molders has introduced an improved Ivan target. The Ivan target is now manufactured with a heavier weight similar to the High Heat Environment (HHE) targets. As a result, the Ivan is more resilient and does not droop or warp.

All US Molders' Ivan targets comply with all specifications as described in TC 25-8. They are durable, easy to install, and have a no-glare flat finish on the target surface to increase visibility.

- Can be cut to fit most major types of lifters at no extra cost
- Features no-glare, highly visible target surface
- HDPE construction eliminates cracking, chipping, and peeling

Part Number:	F-Type	E-Type
	USM-06	USM-05
Dimensions:	20" x 8" x 21"	20" x 8" x 40"
Weight:	2 lbs.	4.5 lbs.
Color Availability: 9 stock colors, see color list		

3D F-Type Ivan

\$19.30 each
(\$17.37 SP)

2D Ivan

\$28.79 each (\$25.92 SP)

Also available with a thermal.

Constructed of our self-healing high density polyethylene, our 2D Ivan proves to be a more durable, longer lasting, versatile target.

- Durable—No drooping or cracking
- Withstands extreme temperatures
- Long-lasting

The 2D Ivan can be used as a

- Stand Alone Target
- NATO Target
- Thermal Target
- Attach Paper Targets

Part Number: USM-92

Dimensions: 20" x 6.5" x 40"

Weight: 7 lbs.

Color Availability: 9 stock colors, see color list

2D Slim Ivan

The 2D Slim Ivan is our standard 2D Ivan with a shorter width on the side. This provides a better target for those ranges experiencing high winds.

Part Number: USM-92-SL

Dimensions: 20" x 1.25" x 40"

Weight: 6 lbs.

Color Availability: 9 stock colors, see color list

**\$28.79 each
(\$25.92 SP)**

Passive (Non-Powered) Thermal

Wait until you see our passive thermals. This design allows for thermal signatures to be seen straight up and down, at up to 15-degrees inverted and 90-degrees left or right. Take US Molders' targets, constructed of their high density polyethylene, add a thermal and you have the best thermal targets available on the market. Works with latest thermal and fusion sights. Presents thermal signature day or night, and even in inclement weather.

- Durable—No cracking, drooping, warping
- Requires no external power, eliminating electrical cost
- Eliminates maintenance of wires and equipment
- Peel and Stick
- Multi Shot (600-1000)
- Withstands extreme temperatures
- Almost any design can be printed

Our Thermals and Night-fire are visible from the ground and the air. Available for:

- E-Silhouette
- 18" x 18" Zero Targets
- HHE E-Silhouette
- F-Silhouette
- HHE F-Silhouette
- Contour Silhouette
- 2D Ivan
- 2D Slim Ivan
- 3D E-Ivan
- RT Truck Frontal RT
- Truck Flank
- 6" x 6" Lane Marker
- 1' x 1' Lane Marker
- 2' x 2' Lane Marker
- 4' x 4' Lane Marker
- 1/2 Scale Tanks
- Full Scale Tanks
- Outer Limit Marker
- Interior Limit Marker

Full Scale Armor Targets

US Molders' Frontals and Flanks Series are full-scale, 2 dimensional products designed for enhancing armor and convoy range training. These durable targets comply with all base military regulations.

- Lasts indefinitely in outdoor environments
- Demonstrates shatter-proof performance, even in cold-weather temperatures
- No-glare flat finish produces true-to-life vehicle images with high visibility
- Compatible with most types of SAT/MAT target mounts
- Easy to assemble and install

Full Scale BRDM Frontal

Part Number: USM-108
Dimensions: 87" x 4" x 94"
Weight: 120 lbs.
Color Availability: 9 stock colors, see color list

\$1,158.14 each (\$1,042.33 SP)

Full Scale BMP Frontal

Part Number: USM-110
Dimensions: 110.5" x 4.5" x 87"
Weight: 135 lbs.
Color Availability: 9 stock colors, see color list

\$1,158.14 each (\$1,042.33 SP)

RT Truck Frontal Target

The Real Threat (RT) Truck Frontal is a unique target display that improves training for group and individual enemy engagement and target recognition training. The RT Truck Frontal's life-like appearance comes from a permanent molding process that fuses the target details directly to the target surface, thus eliminating cracking, chipping, or peeling, and enhancing target realism.

- Offers option of open windshield
- No assembly required—can be used in freestanding position, or mounted on most major types heavy MAT & SAT lifters
- Durable—lasts longer than plywood or cardboard targets

	w/ Windshield	w/o Windshield
Part Number:	USM-08	USM-09

\$528.01 each
(\$475.21 SP)

New 2D Truck Frontal Target

Save on shipping with our 2D truck frontal. It resembles the front view of a pickup truck. 2x4 or 4x4 posts can be inserted in the pre-cut holes on the bottom of the target, and then buried in the ground or mounted on most major types of MAT or SAT heavy lifters.

Part Number: USM-130
Dimensions: 75" x 4" x 70"
Weight: 62 lbs.

9 stock colors available

\$528.01 each
(\$475.21 SP)

RT Truck Flank Target

The Real Threat (RT) Truck Flank Target is a 2 1/2-dimensional target that resembles the flank view of a medium-duty pickup truck. This two-piece target goes through a molding process that eliminates cracking, chipping, and peeling.

The RT Truck Flank is easily assembled and installed due to the built-in finger joints between the cab and bed sections. Once locked together, 2x4 or 4x4 wooden posts can be inserted in the pre-cut holes on the bottom of the target, and then buried in the ground or mounted on most major types of MAT or SAT heavy lifters.

Portable Multi-Position Firing Line Support

Part Number: USM-46
 Weight: 3.5 lbs.
 Color Availability: OD Green,
 Desert Tan, and Black

\$38.65 each
(\$34.79 SP)

US Molders' Multi- Position Firing Line Support has become a popular addition to many ranges. Designed to replace heavy sandbags, this firing accessory is lightweight and can be repositioned to heights of 6", 9", and 11"

- Lightweight and easily handled by one person
- Eliminates need for maintenance or replacement—last indefinitely even under heavy outdoor use

Small Firing Line Support

The Small Firing Line Support is a training aid developed for range qualification programs. This durable product is designed to support rifle marksmanship activities as described in FM 3.22-9.

- Easily maneuvered
- Eliminates need for maintenance—lasts indefinitely, even under heavy outdoor use
- No assembly or installation needed
- Offers option of custom graphics molded onto support (extra charge applies)

Part Number: USM-48

Dimensions: 14" x 59" x 29"

Weight: 50 lbs.

Color Availability: 9 stock colors, see color list

\$431.67 each
(\$388.51 SP)

Large Firing Line Support

The Large Firing Line Support is a training aid developed for range qualification programs. It is lightweight and can be filled for ballast. Custom graphics can be molded directly onto the support, such as lane ID numbers, for an additional cost.

- Lightweight and easy for one man to maneuver or two men to carry
- Designed for CP/MPFQC Ranges
- Eliminates need for maintenance or replacement—lasts indefinitely even under heavy outdoor use
- No preparation, assembly, or installation needed
- Can be moved or set aside for other training requirements

Part Number: USM-49

Dimensions: 15" x 64" x 83"

Weight: 55 lbs.

Color Availability: 9 stock colors, see color list

\$598.92 each
(\$539.03 SP)

Kneeling Barrier

The new Kneeling Barrier provides several shooting options. Made with the same self healing material as our targets.

- Lightweight and Easily moved by 2 people
- Made from US Molders' high density polyethylene, lasting indefinitely in outdoor environments

Part Number: USM-134

Dimensions: 96" x 21.5" x 52"

Weight: 200 lbs.

Color Availability: 9 stock colors, see color list

\$1,234.00 each

Part Number: USM-56
Weight: 9 lbs.
\$233.04 each (\$209.74 SP)

4' x 4' Lane Marker
Part Number: USM-59
Weight: 25 lbs.
\$412.30 each (\$371.07 SP)

Above pictures show 2 of each lane marker.

Ground Lane Marker

Ground Lane Marker
 Part number: USM-66
 Dimensions: 20" x 12" x 5.13"
 Weight: 5 lbs.
\$70.56 each (\$63.51 SP)

US Molders' new Ground Lane Marker allows for your lane identification to be in the ground. The Ground Lane Marker can withstand the weight of a gator or pick-up truck.

Saves time, as you do not have to go around when mowing.

4 x 4 Post

Unlike their wood counterparts, These 4x4 posts are: 100% waterproof. They can withstand almost any weather conditions. No more rotting posts or posts that shatter and splinter. They are insect resistant and environmentally friendly., made of 97% recycled material. The 4x4 post can support our Half Scale targets and can be cut in half to provide for two shorter posts.

\$87.63 each
(\$79.46 SP)

Part Number: USM-103
 Dimensions: 4"x 4" x96"
 Weight: 28 lbs.

Interior Limit Marker

\$489.99 each
(\$441.00 SP)

All Range Limit Markers come with the option of having custom graphics molded onto them, such as range numbers, for an extra charge.

- Installs easily by being slid over wooden posts or hung from molded-in nuts
- Increased range boundary visibility during night-time training
- No maintenance necessary—lasts indefinitely in outdoor environments
- Graphics available in left and right

Also available in thermal.

Part Number: USM-62
Dimensions: 24" x 24" x 96"
Weight: 60 lbs.
Color Availability: White-Black , Orange-Black

Outer Limit Marker

\$536.19 each (\$482.38 SP)

- US Molders offers Range Limit Markers for all ranges needing limit identification. These highly durable and portable accessories conform to all TC 25-8 requirements, and outlast metal or wooden markers. Graphics available in left and right .

Also available in thermal.

Part Number: USM-63
Dimensions: 96" x 4" x 90"
Weight: 55 lbs.
Color Availability: Orange-White

NEW AND IMPROVED

Bunker Sections

Our new Bunker Sections are designed to stand alone or bolted together in many pieces providing a larger Bunker. Available with or without windows and doors.

- Lighter than its steel counterparts
- Eliminates need for replacement from outdoor weather conditions
- Extended life of bunker compared to wood bunkers
- Lightweight and easily carried

\$757.00 each section
(\$675.00 SP)

Part Number: USM-135

Metal Target

- AR500 Steel
- 1/4", 3/8" and 1/2"

8' Block Wall Accessory

In response to real world training scenarios continually changing, US Molders has launched a new 8' Block Wall. Our walls can be used to create scenarios for glass wall formations, live fire convoys, villages, and etc. Our windows and doors help with a variety of entering options.

- Self-healing material eliminates shattering and bullet ricochet
- Easily transported and maneuvered
- Withstands extreme weather temperatures

\$885.97 each

\$995.14 each
(\$895.63 SP)

Also Available

8' Block Wall with Door Cut-Out

Part Number: USM-129
Dimensions: 78" x 4.5" x 96"
Weight: 85 lbs.
Color Availability: 9 stock colors,
Custom color combos available

4' Stone Wall Accessory

\$411.60 each
(\$370.44 SP)

The Low Stone Wall Accessory is designed to be part of realistic warfare training, such as lanes and urban scenarios. The realism of this accessory is created through a 3D molding process that reproduces the texture of real stone without the weight.

- Triangular supports on back can be filled with soil or gravel for retaining wall effect or better anchoring
- Freestanding structure requires no assembly or installation
- Self-healing material eliminates shattering and bullet ricochet
- 8" ledge molded into top of product
- Easily transported and maneuvered

Part Number: USM-41

Dimensions: 44" x 4" x 47"

Weight: 80 lbs.

Color Availability: 9 stock colors, Custom color combos available

6 1/2' x 6' Stone Wall Accessory

\$686.66 each
(\$618.00 SP)

The 6 1/2' x 6' Stone Wall Accessory is a range and training accessory that features a stone-like texture on both sides and an 8" ledge on top. This product installs by inserting 4" x 4" posts into bottom post holes, and burying at least 36" deep. The 6 1/2' x 6' Stone Wall is best used alongside other Real Threat Series items such as the Low Stone Wall and Plastic Guardrail (p. 46).

- With proper installation, can support the weight of soldiers in full gear climbing over it
- Molded-in texture on both sides allows reversibility
- Demonstrates durable, shatter-proof performance

Part Number: USM-42

Dimensions: 78" x 4" x 72"

Weight: 100 lbs.

Color Availability: 9 stock colors, custom color combos available

Plastic Guardrail

\$77.00 each (\$69.30 SP)

The Plastic Guardrail Accessory is designed as a safer, more effective replacement for standard galvanized steel guardrails. This 8 ft. accessory is also a valuable tool for lanes and ARTEP training programs. (Guardrail Posts and Ends priced separately.)

- Eliminates rust, sparks and ricochet
- Easily cut, drilled through, and fastened
- Causes less accident damage than steel (*Note: Not intended for use as a barrier.*)
- Easy for one man to carry and maneuver
- Self-heals from bullets

Part Number: USM-43
Dimensions: 96" x 3.5" x 11"
Weight: 12 lbs.
Color Availability: "Galvanized" Gray

The Plastic Guardrail Post is intended to support the US Molders Plastic Guardrail. The Guardrail Post eliminates the need for permanent wood or metal supports that require replacement due to rust or rotted wood. Its unique design compensates for normal expansion and contraction of the plastic guardrail.

- Lightweight and easily moveable for one man
- Eliminates rust, sparks, rotting, and ricochet
- Attaches easily to guardrail - Requires minimal assembly

Part Number: USM-45
Dimensions: 5.5" x 36"
Weight: 8 lbs.
Color Availability: "Galvanized" Gray or Safety Yellow

Plastic Guardrail Post

\$68.60 each (\$61.74 SP)

Plastic Guardrail End

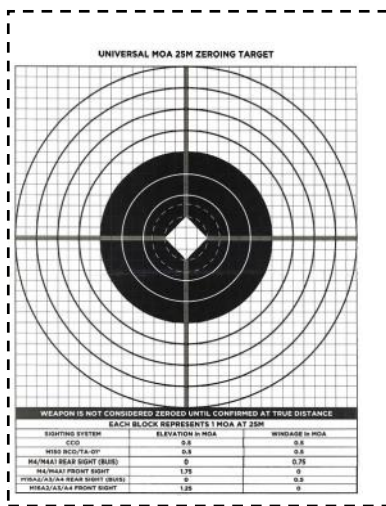

\$68.60 each (\$61.74 SP)

The Plastic Guardrail End provides a realistic appearance of the Plastic Guardrail. Like the Guardrail and Posts, it is a safer, more effective replacement for standard galvanized steel guardrail posts.

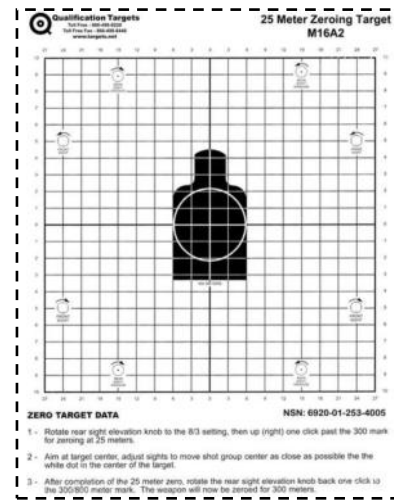

- Eliminates rust, sparks and ricochet
- Slides over guardrail for simple assembly
- Causes less accident damage than steel (*Note: Not intended for use as a barrier.*)
- Easy for one man to carry and maneuver
- Self-heals from bullets

Part Number: USM-44 Dimensions:
16" x 24"
Weight: 4 lbs.
Color Availability: "Galvanized" Gray
